It's an opportunity given to people in need, to experience God's love and healing power under strictest confidentiality. A guest is offered personal prayer ministry in a safe and loving environment, guided by two prayer ministers. These fall in the following categories: -</li> <li><b>Two-day and one day Healing Retreats</b>. The two-day retreat usually runs from Friday 5.00 p.m. to Sunday 4.30 p.m. and is characterized by short teaching sessions, prayer ministry sessions and personal time in the garden. The one day retreat is identical to the above, however there are no teaching sessions due to the limited time and it runs from 8.30 a.m. to 5.00 p.m.</li> <li><b>Personal Prayer Appointment (PMA)</b> often includes time working through areas of forgiveness, repentance and inviting Jesus to be Lord. It can also include recognizing the work of the enemy in our lives and appropriating the power of the cross of Jesus to gain victory. The goal is to bring healing and restoration to the person. PMA's are usually about 2 hours.</li> </ul> |

| Explore A8<br>Connected - Exploring God's<br>Design for Relationship<br>8 <sup>th</sup> & 9 <sup>th</sup> February 2020<br>Venue: Ellel Center, Nairobi | Life consists of relationships! When God made us in His image, He made us relational human beings, created to live in dynamic relationship with both Himself as well as one another. Whilst relationships are intended for mutual blessings, we all know that they also have the potential to bring pain and hurt. Sometimes relationships can get so mixed up that we even lose sight of God's original purpose for them. How can we find the way back?<br>Jesus modelled perfect relationship to us - both in terms of His relationship with the Father as well as with fellow human beings. But even more so, He provides us with healing for the pain resulting from wrong relationships can bring. The Lord wants to teach us how to find joy and freedom in healthy relationships and how to approach the restoration of shattered ones. This course will help you in finding God's way forward for your relationships in the past. |
| Parenting Conference<br>15 <sup>th</sup> February 2020                                                                                                  | Parenting is a great responsibility from God our Father. It is part of<br>the commission given to Adam and Eve. It was meant to be great joy<br>and through it, life and blessing would be modelled and passed on<br>from one generation to the other. However, parenting is one of the<br>great challenges of our generation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

For some there is a specific fear or anxiety that grips our<br>heart, often linked into a specific trauma or memory. For others<br>anxiety lies at a deeper place of our being, having become entwined<br>into our hearts at an early stage. We often have a misconception of<br>how God views us in our struggles and instead of finding the Lord in<br>our place of need, we find our own ways of coping and controlling<br>our lives to avoid the discomfort and weakness of fear.                                                                                                                                                                                                                                                                                                                                                                   |

Perhaps we have lacked security and safety in our lives and our Father God longs to show us the truth of who He is – our strong shelter, our safe tower, the anchor for our hearts.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 12 Day School          14 <sup>th</sup> to 25 <sup>th</sup> April 2020         Venue: Shunem Retreat Center, Embu         Getting To The Root of the Problem 1 & 2         9 <sup>th</sup> & 10 <sup>th</sup> May 2020         Venue: Ellel Center, Nairobi | This ministry school provides a concentrated program of teaching, followed by some practical ministry experience. It is designed to help equip those who have a heart to bring healing to others and wish to move into greater personal wholeness. This program of teachings, corporate and personal prayer ministry is primarily designed to help guests allow God to point and bring healing and restoration to deep issues in their lives that have hampered effective Christian living or even caused much pain in their lives. The goal is that they can move victoriously into their God given destinies as disciples of Jesus Christ. A separate program for equipping in the healing ministry for those already on a journey of healing through Ellel Ministry is by invite only. See Separate Flyer Have you been prayed for repeatedly for the same issue? Do you feel that you seem to go round and round the same problem in your life? Then these understanding days could be for you! God knows the foundations of your being and the key areas that affect your life. If the fruit is there, there will be a root. Often we give "first aid" in our prayers to the broken and hurting, but feel frustrated that no lasting solution seems to result. It may be because we are praying for the symptoms rather than the true root of the problem. This course gives you the opportunity to discover the principles of praying in-depth into problems, about different types of roots, how they got there and how to remove them. We encourage you to attend these foundational teachings to gain understanding. |

| Explore A1<br>The Big Picture - Exploring<br>God's Foundations for Life<br>4 <sup>th</sup> & 5 <sup>th</sup> July 2020<br>Venue: Ellel Center, Nairobi | All of us are born with questions about life and eternity etched deep<br>in our hearts. We have a God-given need to find out why we are<br>here on earth and what life is meant to be all about. In today's fast-<br>changing world, full of confusing voices, this need for solid truth to<br>build our lives on is even more necessary than ever.<br>This course answers life's foundational questions from a solid biblical<br>perspective - perhaps in a way that you have never heard God's<br>story explained before. We will look at the sweep of history from the<br>early days in Genesis until the Lord's return in Revelation.<br>You will understand better where we come from, how humankind<br>got to be in this mess and perhaps most importantly, you will<br>understand more of God's amazing rescue plan for humankind. Not<br>only has God saved you, He also wants to heal you and set you on<br>the right course to fulfil His destiny purpose for our lives! The Big<br>Picture will help you lay hold of God's plan for your life and we trust<br>it will be a catalyst for you to start being released with 'strength for<br>today and bright hope for tomorrow!' |

But what does that really mean, and do we believe<br>we have a part to play?<br>This course will uncover what it means to be in God's family and<br>how we can grow and flourish in that place of belonging and rest. It<br>will look at what it means to share in His work, pray His family prayer<br>and draw strength from the family for our everyday lives. We will<br>consider what the hallmarks of being in the family business are and<br>what we can offer in our service of Him. The course will also give an<br>eternal perspective on this great privilege we have, will draw us<br>closer to the heart of God, show us our place in God's plan and<br>inspire us to play our part in God's Kingdom purposes.                                                                                                                                                                                                                      |

| Explore A2<br>Knowing God - Exploring the<br>Character and Nature of God<br>1 <sup>st</sup> & 2 <sup>nd</sup> August 2020<br>Venue: Ellel Center, Nairobi | For many of us there can be a disconnect between knowing about<br>God and truly knowing God in our hearts. We read the scriptures<br>and see that God wants us to know Him but we are not sure how to<br>enter into that deeper place of knowing and relationship.<br>This course is all about helping us come to know more of God and<br>connect to Him in a deeper way. It is designed to provide an<br>opportunity to look deeper at His character and nature and explore<br>how we can have an intimate relationship with Him – how we can<br>experience Him and know more of Him in our lives. It will also seek<br>to deal with the blockages we have in knowing God the way He<br>really is and to understand the reasons why some of those blockages<br>exist. There will also be an opportunity to receive more of the Holy<br>Spirit in our lives.                                                                                                                                                                            |                         |

Tangled thoughts and beliefs that have no grounding, but which feel so real, and therefore motivate and form our behaviour?<br>Many of us struggle to fully receive God's truth into our hearts because it clashes with another 'truth' within us. We hear that God will take care of all our needs, but because of an often subconscious and deeply hidden belief that we are on our own, we live a life believing that we have to provide for ourselves. Maybe our beliefs are more related to ourselves or to others and that impacts our ability to find deep and meaningful relationships.<br>This course will explore the ways in which our beliefs about God, others and ourselves are formed and how these beliefs, when out of sync with God's truth, cause behaviour in our lives which is destructive. It will share God's heart to 'rewire' our beliefs with His truth, and His desire to free us from the power of lies that we've believed and new life in Him. |                         |

| Explore A3<br>God's Master Key - Exploring<br>the Power of Forgiveness<br>5 <sup>th</sup> & 6 <sup>th</sup> September 2020<br>Venue: Ellel Center, Nairobi | <ul> <li>When Jesus spoke from the Cross, "Father forgive them", He released to humankind an immensely powerful key for restoration from the bondage of pain from the past. For true freedom we need not only to receive God's forgiveness for our own sinful actions but we need to extend forgiveness to all those who have hurt us, however difficult this may be.</li> <li>Forgiveness is a Kingdom principle which is pivotal to the healing ministry of Jesus, so in this course we will explore the damage caused when there is unforgiveness and judgement of others, we will investigate the many challenges of applying this key, and there will be opportunity to receive God's healing for areas of unresolved inner wounding. Without doubt, countless lives have been totally transformed by God as people have lived out the consequences of applying the key of forgiveness.</li> </ul>                                                                                                                                                                                                                                                                                                                                 |

| Explore B3<br>Deliver us from evil<br>12 <sup>th</sup> & 13 <sup>th</sup> September 2020<br>Venue: Ellel Center, Nairobi                                   | The feeling of being held back in our life, but not knowing by what, is seemingly very common. We live in a spiritual as well as physical world which constantly influences us, whether knowingly or unknowingly. Christians are not immune from falling into the hidden traps of the enemy, not least in the pursuit of spiritual well-being and healing. This course seeks to shed light on the subtle deceptions of the Evil One, and how our endeavours to find victory in healing or grow in our discipleship can be tripped up constantly. We will explore the deceptive nature of the enemy and how he seeks to entrap us through various strategies. This may be previous false religious practices and covenants. We identify harmful alternative healing remedies and exercise regimes, exposing the root of spiritual dangers that will inflame a problem more than cure it. The course will bring vital teaching on the subject of discernment, signposting safe practices. It will also explain how God's precious deliverance ministry can help believers. There will be teaching on God's way of bringing cleansing to spiritually defiled ground, removing the grip of the enemy so you can be free to grow unhindered. |

The<br>scriptures tell us that God loves all He has created and that when we<br>accept Jesus as our Saviour we are fully part of God's family again.<br>So why do we find it so hard to personally accept this truth? Even<br>when we are Christians, why do we sometimes feel as if we are still<br>lost sheep who desperately desire and need to be found and<br>embraced by the Good Shepherd?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| Youth Conference                                               | Young people make up a great percentage in our population. They make great majority in our churches and they are influencing the directions many sectors today as they affect the Market forces.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 28 <sup>th</sup> November 2020<br>Venue: Ellel Center, Nairobi | Unfortunately, young people seem to only stand in groups and<br>multitudes. How can we have young people who dare stand alone in<br>a world where everybody is swayed by popular culture? Where are<br>the Josephs and Daniels of today?                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
